FREER ENERGY & INTERNET

The Wave® Operating System (WaveOSTM) brings into existance, a new generation of Smart Home Products, capable of lowering internet & energy bills by as much as 100% e.g. Free Internet & Energy

1.1 Our vision

We believe a connected and powered world is a better one. When you empower anyone with internet and electricity, their ability to contribute and generate value for their society, grows exponentially.

Wave® is pleased to announce that we have developed a technology which profits from reducing the internet and energy bills of our users. During early trials of Wave® some bills even reduced to zero e.gf free internet & energy

The Wave® solution is an Operating System we call WaveOSTM, which was awarded Patents from Google in 2016. During 2018 Wave® began developing a range of smart home products which are powered by the Wave® Operating System (WaveOSTM). For more info visit our :Store: Store2.

:Store: 'Store2'.

WaveOSTM is free and open-source (GitHub). The latest compiled version of the software is also free to download from our website for anyone already in possession of a Single Board Computer e.g. Raspberry Pi - https://makeitwave.com/download.html.

Thank you for your time reading this. We've been Wave® and you've been great.

1.2 Glossary

1.2.1 Release Notes and Notices

This section provides information about what is new or changed, including urgent issues, Software & documentation updates, maintenance and new releases.

• 'Updates' are the term used to describe significant changes to our public source code. These technical documents are now contained within our public source code.

Version 0.0.1

This is the first release/ draft of this technical document.

Older Versions

There are no older versions of this document, however a table has been made so that enteries can be made. We're also still exploring how exactly we will make links to the older versions possible. Perhaps a PDF snapshot will do, before the directory is overwritten with the next version. The sphinx methodology is new to our team, we're still exploring this and other options for maintaining technical documents for this project:

Table 1: Table 1.0 - Older Versions of this Document

1.4 Disclaimers

THIS IS NOT A PROSPECTUS OF ANY SORT This document does not constitute a prospectus of any sort; it is not a solicitation for investment and does not in any way pertain to an offering of securities in either Canada or the

United States, and Canadian and United States residents are expressly excluded from contributing in exchange for any Wave® Tokens in the public contribution offering. This document constitutes a description of the Wave® platform and the functionality of the Wave tokens; it is for informational purposes only and may change as the Wave® technology develops over time. This Wave® Whitepaper is for information purposes only. Make it Wave Ltd (a UK Company), and all affiliated and related companies, do not guarantee the accuracy of the conclusions reached in this paper, and the whitepaper is provided "as is" with no representations and warr anties, express or implied, whatsoever, including, but not limited to: (i) warranties of merchantability, fitness for a particular purpose, title or noninfringement; (ii) that the contents of this whitepaper are free from error or suitable for any purpose; and (iii) that such contents will not infringe third-party rights. All warranties are expressly disclaimed. Make it Wave Ltd and its affiliates expressly disclaim all liability for and damages of any kind arising out of the use, reference to, or reliance on any information contained in this Whitepaper, even if advised of the possibility of such damages. In no event will Make it Wave Ltd, or its affiliates be liable to any person or entity for any direct, indirect, special or consequential damages for the use of, reference to, or reliance on this whitepaper or any of the content contained herein.

Recipients are specifically notified as follows:

- 1. **No offer of securities:** Wave® Tokens (as described in this Wave® Whitepaper) are not intended to constitute securities in any jurisdiction. This Whitepaper does not constitute a prospectus nor offer document of any sort and is not intended to constitute an offer or solicitation of securities or any other investment or other product in any jurisdiction.
- 2. **No advice:** This Wave® Whitepaper does not constitute advice to contribute in exchange for any Wave® Tokens, nor should it be relied upon in connection with, any contract or purchasing decision.
- 3. No representations: No representations or warranties have been made to the recipient or its advisers as to the accuracy or completeness of the information, statements, opinions or matters (express or implied) arising out of, contained in or derived from this Whitepaper or any omission from this document or of any other written or oral information or opinions provided now or in the future to any interested party or their advisers. No representation or warranty is given as to the achievement or reasonableness of any plans, future projections or prospects and nothing in this document is or should be relied upon as a promise or representation as to the future. To the fullest extent, all liability for any loss or damage of whatsoever kind (whether foreseeable or not) which may arise from any person acting on any information and opinions contained in this Wave® Whitepaper or any information which is made available in connection with any further enquiries, notwithstanding any negligence, default or lack of care, is disclaimed.

Risk warning: Potential contributors should assess their own appetite for such risks independently and consult their advisors before making a decision to contribute in exchange for any Wave® Tokens
